SUMMARY

Software Engineer with experience building scalable backend systems, developer tooling, infrastructure automation, and AI-assisted applications. Developed production tooling using C#/.NET, APIs, vector embeddings, semantic search, and retrieval-augmented generation (RAG), alongside full-stack systems deployed across enterprise and SaaS environments. Experienced across software engineering, networking, cloud infrastructure, and operational automation.

EDUCATION

University of Colorado at Boulder

B.A. in Computer Science

May 2023

Boulder, CO

- **Coursework:** Data Structures and Algorithms, Operating Systems, Object-Oriented Programming, Data Mining, Database Systems, Robotics, Big Data Architecture

WORK EXPERIENCE

Edupoint Educational Systems

August 2024 - Present

Software Engineer

Mesa, AZ

- Developed and maintained **production features** and **critical system fixes** for a nationwide **K-12 LMS** platform **serving thousands of schools**, improving application **reliability**, **maintainability**, and operational **stability**.
- Engineered an internal **C#/.NET data migration** and **onboarding** tool that automated legacy system conversions, **reducing manual effort** and **minimizing onboarding risk** during large-scale customer implementations.
- Leveraged **AI-assisted development** workflows alongside traditional **debugging**, **code review**, and **testing practices** to accelerate feature development, issue resolution, and internal tooling implementation.

Veritas Managed Solutions

Jun 2023 - Jun 2024

Network Engineer

Remote

- Built a **Cisco Meraki API automation** tool that **reduced manual network configuration** and monitoring effort by **25%+**.
- Led **scoping** and **proposal development** for enterprise deployments, supporting **multi-site rollouts** valued at **\$100K+**.

University of Colorado Boulder

Aug 2022 - May 2023

Technical Support Engineer

Boulder, CO

- Resolved **hardware** and **software** issues across **Windows**, **Linux** and **macOS** environments, improving **response time** and **system uptime** for end users.

RedJade LLC

Jul 2020 - Jan 2021

Software Engineer Intern

Remote

- Developed **production web applications** for high-profile clients (NASA, Amazon, Walmart) using **Ruby on Rails** and **TypeScript**, delivering **scalable** and **responsive** solutions.

TECHNICAL SKILLS

- **Languages:** C#, Python, JavaScript, TypeScript, SQL
- **Framework & Platforms:** .NET, React, React Native, Node.js, Flask, Expo, Tailwind CSS
- **AI & Data Systems:** Retrieval-Augmented Generation (RAG), Vector Embeddings, Semantic Search, Claude API, LLM Integration
- **Infrastructure & DevOps:** Docker, AWS, PostgreSQL, Redis, Supabase, Git, Linux, TFS, Bash

DEVELOPMENT PROJECTS

Platryl | React Native, TypeScript, Expo, Supabase (PostgreSQL, Auth, Edge Functions), Zustand, Deno, REST APIs, Resend API

- A **cross-platform kiosk management app** developed for a Chick-fil-A franchise, enabling task and checklist workflows across distributed restaurant environments. Architected an **offline-first system**, **secure PIN authentication**, and **real-time sync** to a **PostgreSQL backend**. Implemented **deep-link auth flows** and **production row-level security**.

AI Developer Insight Tool | C#, .NET, TFS API, REST APIs, LLM (Claude), Vector Embeddings, RAG, Semantic Search

- Engineered an **AI-powered** developer intelligence platform that **aggregates ticketing systems**, **TFS changesets**, and **code diffs** into a unified **semantic search and retrieval system**. Implemented **vector embedding pipelines** and **retrieval-augmented generation (RAG)** workflows enabling **natural-language querying** of historical engineering decisions, code changes, and deployment context using **LLMs**.

Desert Candle Works E-Commerce Website | Next.js, TypeScript, Redis, PostgreSQL, Drizzle ORM, Square, Stripe, ShipStation, SEO

- A **full-stack e-commerce platform** built with Next.js. Implemented **payment webhooks**, **automated shipment fulfillment** system, full **SEO optimization**, and a secure **admin dashboard** which includes business tools such as **earning**, **purchasing**, **tax** and **traffic analytics**, internal and external **inventory management**, **order status** and **refund management**, and many more business tools.

EXTRACURRICULAR

Sigma Tau Gamma | Chapter President - 2020-2021 | Director of Community Engagement - 2019-2020

CERTIFICATION

- CBT Nuggets: CCNA Training
- Aviatrix Certified Engineer: Multi-Cloud Network Associate Training
